The bride's maids are waiting for the bride, but she just called and is going to be a couple hours late. Well, that's not going to keep these three from having their own lady-love honeymoon. It's not long before tall tales of their own marriages give way to cat-like growls and kitty moans as pussies are opened for hot tongues and fingers. It's too bad the bride's not here because she then would be the center of attention.

sex-obsessed men and women share their tales of lust at work

sex on the job

Whether you are a banker, a baker, or a housewife, there are things that go on in your everyday life that can blow your mind. There are some jobs that are more of a turn-on than others, while some people turn others on for a living. We have listened to many of our readers and what turns them on about their jobs.

For instance, Emily is a secretary who works at a downtown insurance company; Dave is a high school teacher; Laura is a showroom model; Monica works as a supermarket checkout girl; Gene is a carpenter; and Lucy is a hairdresser. All of these people and others have shared some of their experiences in the ways that they were turned on at their place of business.

It is almost impossible to say what will turn you on. Maybe it's someone you meet, or a boss or coworker that does it to you. In the case of Emily, it started when she was assigned to a new boss at the office where she works. It was a young man about eight years younger than her. "When I was first assigned I was not too happy. I was working for the company for about three years and Mr. B., for whom I was assigned to be his personal assistant, was very good to me. He was a much older man and he always treated me with respect; it was a pleasure to work for him.

"Our business is so that it requires a lot of late hours just to keep ahead. If we worked late at night Mr. B. would always buy us dinner and make sure we got home alright. He was married to a wonderful woman and I had been to

their house on many occasions. Mr. B. retired and I was reassigned to Mr. J. I have been divorced for four years and for a 38-year-old I think I'm in decent shape. I exercise a lot and play tennis and watch my diet.

"After the first week of working with Mr. J., I began to relax and it seemed he became very dependent on me, which made me feel important. One night at about 4:00, he asked if I would be able to work late and I said yes. He then asked if I would have dinner with him. We went to a little restaurant not too far from the office. We had drinks before the meal and a drink with dinner. We started to get into each other's personal lives. I found myself very calm and interested in him, and it seemed as if he was feeling the same.

"When we got back to the office, we started right back to work and after about an hour we took a coffee break. While standing around the machine he told me he was very happy that we were working together and that he found me to be very attractive. I started to blush and a warm feeling came over me. I think it must have been the drinks because while listening to him I began to fantasize what he would be like between the sheets.

"I must say I don't do this often but when a man makes me feel good my mind just begins to wonder. I don't normally do anything about these feelings because I'm sure that they would not be as good as I imagined them to be. After another hour Mr. J. said to call it quits, and since it

was a Friday night, would I like to go out for a drink. I was caught a little off guard yet I accepted. After another drink I was feeling really good and the conversation touched on sex, but very politely. I had started to think of my boss in somewhat businesslike terms when I realized that after another drink, I would start to lose my inhibitions.

“After all, not only was Mr. J. my boss, he was also eight years my junior, but what the hell. You only go around once and you might as well go the right way or the way that makes you feel good. When we were finished, Mr. J. asked if he might see me home. I didn’t think I was capable, so I thought it would be better. In the cab we were laughing pretty much and when we got to my place I invited him up. Once inside, I started to make coffee and he sat on the couch. I came back and we just began talking. I didn’t remember being this at ease with someone in a long time. We started to talk about sex and I was asking him about his exploits when he confessed that he hadn’t had many since he had spent all his time studying.

“I think I moved towards him—or maybe it was mutual—because before I knew it we were embracing and our bodies were held tightly together. One thing led to another and we had moved to the bedroom and shed our clothes in the process. Under the covers that man had quickly found out what he was missing by studying all the time, while I learned to be a little looser with people. Mr. J. had spent the weekend learning all the positions that I knew and had never before tried. When Monday rolled around, we both went to work with only a knowing smile and a promise to see each other again.”

Emily is a perfect example showing what can happen when two people spend all their days together and it looks as if there will be a few nights of fun. Emily and Mr. J. just felt something and planned nothing, which is how these things happen.

Dave, the high school teacher, also did not plan his encounter.

“I teach high school in a suburb and the people are all friendly with each other. I know almost all the other teachers and all of my students. Some time ago one of my students started to give me the eye. At first I thought maybe I was putting something into it that wasn’t there and of course everybody knows that teachers had better keep their hands off of their students.

“But whoever made up that rule had never met Nina. She was 18 years old and was very well-developed, and more of a woman than others I had met who were much older. She had an A average and was a delight to talk to. As the weather got warmer her clothing had become skimpier. One day she came in wearing a halter top and shorts and I thought I might lose control. The class was over in an hour and I was free till the next class, so I went to the faculty lounge and had coffee with one of the other teachers.

“It had seemed as he too was beginning to feel the burden of working with young girls who, in their own way, got a kick out of turning on the teacher. After a few minutes I was alone and Meg, who is the girls’ gym teacher, sat down. ‘I am sorry for bringing this up but I was sitting behind you and overheard what you said, and the way to get over this problem is to work it off,’ Meg said. At first I was a little embarrassed, but then I thought I was going to get some lecture on how my body was going to hell. Much to my surprise I got neither. Instead, what I got was a dinner invitation for that night and a promise that I would have some of my pressures relieved.

“After school let out, I had to stay and correct some papers and do a bit of clean up. Sitting alone, I was startled when Nina appeared to ask if she could talk to me. I said of course and she sat at the desk in front of mine so that I could see right into her eyes. Her problem was that she thought that boys her age had only one thing on their mind. And she thinks she would like to find out what it would be like with someone older.

“I know this sounds like one of those clichés but I never thought it would happen to me—and I wasn’t really

sure it was happening now. I gave her the old song and dance about the fact that she was a very smart young lady and that she was advanced for her age. Also, she would be going to college the following year and she was bound to meet a great many older guys. It wasn't something that she had to push, and she looked up at me and told me she did not want to wait and she feels closer to me than any other person. She also added that she realized that it might take some time to adjust to what she had just said and she would be patient but she would not give up. And with that, she left. I tried to stop her but she had run out and I thought I could talk to her the next day.

"When I sat back down I was having trouble keeping my mind on the task at hand. The thought of that young girl kept popping into my head. I began to fantasize an entire scene: Nina coming in after school like she just had, only her conversation was a little more heated and I could feel myself getting hard under my desk. Nina was asking if I would like her to crawl under my desk and take my cock out and suck on it till I came. While she was talking, her nipples started to appear under the halter she was wearing. My mind was just wondering when Meg came in and told me to be at her place at about 8:00 and bring some wine.

"After a shower and change of clothes, I went over. On the drive over I started to think of Nina again and I could feel myself getting hard once again. Meg had come to the door in a long-slit skirt. She was not a great-looking woman; her face was sort of plain but her body was in great shape, very tight but not too muscular for a small body. This night she looked great.

"I fixed us some drinks while she was in the kitchen preparing dinner. After a great dinner Meg told me to lie down on the floor and she would help me relieve some of my tensions. I did not have to be asked twice; it had been quite a day and I was ready for anything. She put a pillow under me and I lay on my stomach. Meg started rubbing my neck and told me I would feel better if I removed my

shirt. After this was done, I lay back to enjoy.

"Meg sat on my ass and started working her way down my back. She was right; as I was beginning to feel relaxed she started to talk about all the sex that goes on at school. She related a story about how she had gone into the locker room after a game and found one of the players with a cheerleader kissing away, with his hands under her sweater and her hands rubbing the front of his shorts and causing them to bulge out. Meg said that she was going to say something but she found herself getting carried away and somewhat excited. She continued to watch them until they left to find someplace else to continue, and she went to her office and gave her clit good tweaking.

"Needless to say, this kind of talk was having an effect on my own bulge and with the rubbing-it seemed that I began drifting and totally relaxing. After a little while longer she told me to get up and we would be more comfortable in her bedroom. Again she did not have to ask twice. Once inside she told me to remove my clothes and wrap myself in a towel if I wanted. I must admit I was a bit self-conscious; my cock was sticking out, forming a tent out of the towel and she had me lie down on the bed, telling me when she got finished relaxing my back she would move to my front and really show me how to relax.

"I became very out of it and almost dozed off when she told me to roll over. The towel did not move so well and I was lying there with a hard-on. Then she bent down to take the head of my dick in her lips. It felt like velvet. I felt ready to explode very quickly but Meg slowed down and pressed her fingers behind my balls and the feeling soon passed. Later that night I found myself in Meg's arms and her in mine and we spent a very enjoyable evening.

"The following day we went to school together, and I thought my future sex life looked very promising. And maybe I would let Nina try and talk me into something."

Both Emily and Dave were turned on at their place of work but continued their fun when they went home.

Laura, on the other hand, was turned on at work “I am a showroom model in New York and I love my job. I have always loved clothes and I think I have a great body for wearing them. The job has some drawbacks though. You have to try on clothes for a lot of different people, some of them being very sleazy.

“There are the guys who ask you to try on a sweater or a bathing suit and then put their hands all over you, telling you they want to see how well the fabric stretches. The boss looks on and tries to be nice about it and when the sale is made, apologizes to me. We are not too big so there are a lot of times that I am left alone to make the sale. I don’t feel bad about this because I only do it to the people I like.

“A woman buyer came in not too long ago late in the day. She had been in many times before and she is very business-oriented. She wanted to see our whole line as she was leaving town for a while and this was the only chance she had. We started to show her the line and it was getting close to 5:00, so some of the girls were leaving. This made a little more work for the rest of us but I did not mind, knowing that I would collect overtime and had nothing planned for the night.

At 5:30 we had just started bathing suits and I had seven to model. My boss had to meet some people at 6:00 so he asked me if I would stay and continue to show the line while the woman wrote her order. Why not, I thought; I was going to be asking for a raise and this would help my chances. We were showing Danskin styles; some were low cut in the front and backless. All of them were sexy and it did not seem as if the woman was looking at me at all. When my boss had left I continued to show our line. After two more suits, she looked up to ask if we had any strings. I went back to change and found that everyone else had left but I had the key so that I could lock up which is what I did, not wanting anyone just walking in while we were in the back and no one in the front.

“I changed into this skimpy thing and went back out to the showroom. The woman looked up for what seemed

like the first time, and even came over to check the fit and the cloth. She stood behind me and had me walk around. Then she would pull a little on the strings, have me walk around again and I was beginning to feel a little conscious of the fact that I was parading around in almost nothing.

“It seemed that her breath was coming a little faster. Her nipples were also starting to protrude from the front of her top. It also seemed as though her touches were a little more than just for fit—and there wasn’t that much to fit. She had slipped her fingers inside the top to see how the elastic was and she brushed along my nipple. It sent a chill through me and I could feel my nipple stiffen. She then moved to the other side and repeated the process. When she did not see me pull away, she became a little braver and put her hand inside the cup and cupped my breast, pushing outward. She said she wanted to ‘test the stretch.’

I have to admit I was getting a thrill from the whole thing. The woman started telling me how I was in great shape and must have plenty of men chasing after me. I told her no, I lived with a girlfriend and stayed home. My voice started to crack as I thought about being turned on by her touches. All of a sudden she stopped and I was a little hurt, but then came to my senses. We had just started a line of underthings and she asked if I could bring out a few samples to show her and she was back to business. I began to wonder if this woman wasn’t what I thought she was.

“As I was walking back to the dressing room, I decided to put it to the test by trying on the underwear and attempting to see if that would have any effect on her. I should say that I had never been with another woman before but the thought had interested me and this seemed as if it might be a chance. The woman was twice my age; had a good figure for her age; dressed very well and looked great. I first put on a pair of bikini panties and matching bra and walked out. I was also feeling a little discomfort between my legs.

“‘Oh my dear, you did not have to model them,’ she said and I was a little put off. But she added that she was

glad I did so and that she had a better idea. I paraded around her a few times and was starting to get into it. Again she started testing the fit and then she began to pull at the panties between my legs. Her fingers touched the outer lips of my vagina and a thrill shot through me and I almost lost my balance. She continued her touching and I felt myself start to get wet. Since she seemed to be mostly business I became a little nervous. She had to have noticed that I was getting off on her touching but she just continued, doing nothing further. And then, just as before she just stopped, leaving me standing there.

“After another moment I went to the back again and decided to put it out in the open—or at least try. I put on a pair of transparent panties and bra and started to rub myself, first my nipples to make them erect then, lightly over my clit. After a few seconds I went out. This time I did have an effect on her. Her breathing had picked up and she was stammering in her speech. I felt great and started to march around and very lightly, I would touch my own nipples to keep the feeling. She stood up and came behind me again and had me face the mirror so that she could judge how tight they were.

“She pressed against me and started to run both hands over the front of my panties to see how flat they were on my waist. Again her hand dropped a little lower so that she could see how tight the inseam was, only this time she touched the outer lips of my vagina and went further, slipping two fingers into my wet body. I could feel an orgasm coming up from my feet. I stretched my head back and she started kissing me on the lips, forcing her tongue into my mouth. The muscles of my vagina were forcing the lips to open and close around her fingers. For the first time in my life I was coming from another woman and she sensed every spot on my body to turn me on, and was touching them.

“Finally, after my first orgasm had come and gone, she had me lower my panties so that she could move around more, and then remove them altogether. She had me sit

on the edge of the desk so that I was barely touching it. She then sat on the chair and moved it closer so that her face was even with my belly. Then, leaning forward, she started to blow warm air over my pussy, moving closer until her lips were so close that they felt as if they were touching but they weren’t.

“I felt as if I would scream if she did not do something soon. She knew this and continued teasing; lightly pulling on my lips and then her tongue came out and ran along the entire length of my pussy. I cried out and clutched on to the desk. I moved closer and was rubbing myself along her tongue as another orgasm wracked my body.

“I do not know how much longer we were there but it seemed like days. Then she invited me to spend the night and to take the order and tell my boss how, without me, she would never have ordered as much.”

Monica is 21 and has been working at a supermarket checkout for about eight months. “A few days ago I was in the back of the store with one of the stock guys. He was a lot older than me and not what I considered sexy at all. I don’t have a steady boyfriend, leaving me to see different guys without any problems. I think I enjoy sex as much as the next person, in fact maybe a little more. Anyway, here I was with this guy old enough to be my dad. As we were working he kept making all these wisecracks about what he’s like in bed and I am teasing him about keeping it up.

“After another 45 minutes we were both kind of warm and he suggested we take a break and get some fresh air. He really wasn’t a bad guy. He had two daughters around my age, and he started to talk about them and how he caught them almost doing it with their boyfriends one night and he got so upset about it. I got mad at him and told him that if they were sons he would be upset if they hadn’t scored. He told me that I am a little ‘such and such’ and that all I need is to get my ass reamed and I would learn a little respect. I yelled at him to get bent and said I haven’t met a

After Gabbie's warmed up, she is ready to shed her girl next door image. She was already undressed and soon Robert joined her. She started by sucking his cock quite nicely. The action continued in the bedroom where she got her pussy munched on and drilled hard. Gabbie tried to swallow it but it got all over her big boobs and face.

A woman with long, dark, straight hair is posing in a modern kitchen. She is wearing a light purple, form-fitting, sleeveless crop top and a matching high-waisted skirt. She is leaning against a white wall on the right side of the frame, with her right arm raised and resting on the wall above her head. She is looking back over her shoulder at the camera with a slight smile. The kitchen in the background features light-colored wooden cabinets, a stainless steel range hood, and a built-in oven. The floor is made of light-colored wood planks.

I have to admit that great sex is a way of life for me. My sex drive is huge and I love to get really into it, especially when it goes in my ass. I am always smiling when my butt's getting plowed. I'm so damn good at it that it amazes me sometimes. I never, ever thought that way before. And, ohhh, the taste of cum, yuummy. I'd love to taste yours, too – soon.

guy who could treat me that way. He yelled back that one of these days he'll bend me over and teach me a lesson. I told him now is as good a time as any.

"He was in shock as I started to unbutton my blouse. It is very rare that anyone will walk in the back but as a safety measure I told him to follow me into the meat locker. I could see that I got this guy so mixed up he didn't know where he was coming from but he followed me anyway. When we got inside I did not expect it to be that cold but I figured if this guy was half as good as he claimed, he could keep me warm and I was feeling horny.

"I slipped off my pants and stuck my ass out to him and asked him if he was all talk or was there any action left in him. He walked over to me and grabbed me as he sat down on a box, laying me on top of his lap. He gave my ass a squeeze, and I did not know what I had let myself in for but in a way it was exciting as fuck.

"My pussy felt like it was on fire and I did not feel the cold anymore. He pulled down my panties and inserted one of his beefy fingers into my cunt and started to pump it away. I had never been handled like this and in a twisted way I was getting off. He stuck another finger into my hot cunt and went on for a few more strokes. I was quaking from the feelings he was giving me and he stopped and stood me up, revealing his dick that he had taken out of his pants.

"He leaned me back without any more warning he pushed his cock deep inside my dripping cunt. It was really big and he continued to manhandle me but I was coming all over his cock and crying out for more. Shortly afterwards he came, filling me with his hot cream as he moaned his way to his finish. After holding me up for another second we both sat on the floor until we felt strong enough to go back to work.

"I have to admit this old guy was pretty good. He had me heated up and we spent the rest of the day with a smile on our faces."

Gene is 33 and has been working as a finishing carpenter for the last couple of years. He does most of his work inside and has had a few experiences with getting turned on at the job. "The last time something happened to me was about two months ago. I was putting some cabinets in this lady's home early one morning. Her husband, she had said, was still asleep and could I try not to make too much noise. I told her it is a lot of noise but that I can come back if she would like.

"**S**he said no, it had taken long enough to get me there in the first place. This lady was in her early 30s and was OK looking, nothing special. When I had arrived, she was wearing a terrycloth bathrobe and just a hint of last night's makeup. Well, I started to work and was going for a time when she came back to ask if I would like some coffee. This time she was in better shape, her bathrobe had become a tube top with an ample boobage beneath it. She had also fixed her face and was wearing the shortest shorts I had ever seen plus a pair of high heels. Her ass was sticking out from the back of her shorts and when she sat down I could see the outline of her cuntlips straining against them. When she parted her legs, her pussylips were sticking out. I thought I should continue to work and pretend I did not notice, which was difficult because I was becoming hard and the front of my jeans were bulging.

"After making some coffee—and brushing her big tits against me a few times while making it—she sat so that she was facing me and she propped up one leg so that her legs were open. I have been in a few situations like this and I try not to let them phase me, but this woman was doing it to me. I had hit myself twice on the thumb while she was talking to me. She spoke in a low, throaty tone and she was doing a number on me. I kept trying to keep my mind on my job and the fact that her husband was in bed.

"She started to ask if I get to have sex with many of the women I work for. I said no, and she asked if she turned me on because it might be interesting to find out just what

was under the overalls I was wearing. As she was asking me, her left hand had moved down between her legs and she started to rub her cunt. When I had banged my hand again she told me to come over and she would kiss it and make it better. I was almost finished so I felt a little daring. After all, her husband hadn't shown himself and I thought maybe she was bullshitting a little.

"She took my thumb between both of her hands and started to kiss my finger, and then she let her tongue run along the joints until she was sucking on it. Then, lowering one hand, she started to rub my cock through my overalls. Needless to say, I was getting very turned on. I had to prop myself against the counter. Unbuttoning my pants, she reached in and pulled my cock out and let my hand go as she replaced my thumb with my cock. I reached in her shirt and started to grab at her tits in time with her strokes. We kept this going for a few more moments before I came like a cannon; she was taking as much as she could down her throat and kept on sucking until I was bone dry. Then she pulled off and started to lick around her mouth to clean up every drop that had oozed out. After, I was able to sit down and she told me how she loved to suck men off and that the taste of a man in the morning was better than orange juice. Her husband worked at night so he was never in the mood anymore.

"I felt bad for him but thought it might be better to finish this work on another morning. If her husband hadn't awakened by this time then he was a real good sleeper. And I figured I would deal with him when the time came, which it never did. I have been back to do some more work three times already, all three were the same story and her hubby was never the wiser."

Lucy has been a hairdresser for some time. "In all the time I have been working I have never done anything in the shop other than getting asked out a few times. This one guy was a regular for about two years. He is a couple of years older than I am and has a real good job. He asked if I

might take him on a Monday because he had an important date that his future might depend on, and asked if I might be free to cut his hair even though Monday is usually our day off.

"Normally the answer would have been no, but like I said, this guy is a regular and a good tipper. Plus, the fact is that he's good looking, so I took the job. We met at the shop at 10:00 and I turned on the lights and music. He asked if I could smoke some weed and cut hair. I said I would give it a try and he pulled out a joint. We had some coffee and he lit up. We sat around talking until we were finished, then I took him over to the sink room so I might give him a wash.

"I was wearing a work shirt and no bra, which isn't a real problem because I am not big in the boobs department. Anyways, I started to wash his hair and the way I was bent over I guess my tits were in his face or just above it. We continued to talk and were kidding around about how we are in the sack. Well, one thing led to another and after staring at him for a second with his hair dripping wet, I lowered my head and he raised his lips and we were kissing.

"His warm hands had slipped inside my shirt and he started to cup my boobs. man, it felt good. It had been a couple of weeks between partners, so I guess I was turned on a little more than usual. He pulled me down into his lap and we continued to make out. I could feel his dick becoming hard under me and I was also becoming aroused. I unbuttoned his shirt so that I might run my hands along his chest. There's something about a guy with a hairy chest that gets me going.

"When we thought the chair might break, we got up to look for a more suitable spot to continue our fun. We both spotted the barber chair and made our move. The following three hours were made up of finding more ways to use a barber chair than I think had ever been done. I might mention in closing that anyone that has access to the chair should definitely take advantage of it."

Tera loves to get down and dirty. Her mouth always drives her man crazy! While the sex itself is fantastic, she just can't get enough of the feeling of sucking dick. And she takes it well! After she finishes gulping down his cock, it slips right into her tight pussy. Of course, she has to have her man finish in her mouth. He surely wanted to do it earlier, but holding out till he could pleasure her pussy made her feel that much better!
